Smart Card Case for iPad mini and iPad Air

By leveraging smart card credentials, Tactivo for iPad mini and Tactivo for iPad Air allow you to move seamlessly from desktop to mobile device while keeping networks and valuable data safe and secure.

Smart Card Authentication

Government and enterprise organizations can now work, collaborate, and share information securely in a mobile environment. With a smart card and any number of Tactivo integrated apps, users can move from their desktop to a mobile device without compromising security.

Available for Virtually Any iOS App

The Precise iOS Toolkit enables developers to implement self-contained authentication or integrate with third-party identity managers and service providers, so Tactivo can be used with a virtually unlimited number of apps.

Tactivo Solutions Ecosystem

The growing Tactivo solutions ecosystem includes a wide variety of apps to address your mobility needs including secure email, browsing, messaging, encryption, and signing to name of few.

Government Compliance

Supports U.S. smart card credentials including PIV, PIV-I, CAC, and TWIC.

Attractive Case Design

Tactivo for iPad mini and Tactivo for iPad Air have a one-piece design, further improving the user experience. Tactivo maintains access to the iPad buttons and connectors, including the ability to charge the iPad without removing the case.

The Smart Card is inserted into the back of the Tactivo
